

I am writing to say that the K-LOVE radio network serves me and others I know with uplifting, inspirational music and information, as well as notices of local community events. I would NOT want to see it replaced with a LPFM broadcaster, because of the positive effect provided by K-LOVE's family-friendly broadcasting. K-LOVE operates in the public interest by uniting listeners across the U.S. and beyond with a sense of community and positivity for living life in an often challenging world.
